Career Objective

A versatile, high achieving IT Professional and skilled Full stack web developer with strong motivational drive to succeed in the Information Technology industry. Recently earned a certificate in full stack development from the University of Sydney, with newly developed skills combined with over two years of experience in software and web development with frontend technologies i.e., HTML, CSS, JavaScript and Node.js. I am an effective communicator and team player, demonstrated throughout various projects in ACS IT Professional Year, University and Bootcamp, where I kept open and regular communication with my teammates both in-person and virtually. Known as an innovative problem solver passionate about developing apps, with a focus on mobile-first design and development. With each project, my aim is to best engage my audience for an impactful user experience. I applied aspects of UX and agile development in a recent project. Positioned to provide unique perspectives on how end users interact with websites and software Platforms. I'm excited to leverage my strong technical skills and great learning eagerness as part of a fast-paced, quality-driven team to build better experiences on the web.
